

# VOCABULARY LIST AND CEFR CORRELATION

 The keywords of the **Oxford 3000™** have been carefully selected by a group of language experts and experienced teachers as the words which should receive priority in vocabulary study because of their importance and usefulness.

**AWL** **The Academic Word List** is the most principled and widely accepted list of academic words. Averil Coxhead gathered information from academic materials across the academic disciplines to create this word list.

**The Common European Framework of Reference for Languages (CEFR)** provides a basic description of what language learners have to do to use language effectively. The system contains 6 reference levels: **A1, A2, B1, B2, C1, C2**. CEFR leveling provided by the Word Family Framework, created by Richard West and published by the British Council. <http://www.learnenglish.org.uk/wff/>
